

Foundation Ukunda Schools Project

Newsletter - Spring 2011

Jambo, Karibu!

Hello, Welcome!

Our achievements in five year...

Mvinden primary school - thousands of text books, renovation of classrooms, furniture for teachers

Mwamanga primary school - school desks for 200 students

Mwangea primary school - water pipe line (over a distance of 4 km)

Magale primary school - renovation classrooms, new toilets, computer class room, water pump

Mwabungo primary school - new classrooms, renovation classrooms, water tank, toilets, school uniforms, extra exercise books, information about HIV/Aids

Magutu primary school - new classrooms, renovation classrooms, canteen, toilets, water pump (see photo right), water tank, extra tuition materials, school visit dentists, information about HIV/Aids, trainee period for Dutch PABO students

Bongwe primary school - support for renovation and delivering text books.

Bulovi primary school - water pump

St Philip's Girls' Secondary School - water pump, computers, text books for computer education

DEO Kwale District - sponsoring of meeting head teachers Kwale district.

Present projects: water pumps for Magale Secondary School and a community water pump Kambiri.

On behalf of all schools: THANK YOU !!!

The coming five years...

We have the intention to start a special school in Western Kenya. We hope to be able to give you more information very soon.

Besides that, we want to stay in contact with the following schools:

Mwabungo, Magutu (South Coast)

Magale and St Philip (Kakamega District).

More than ever before we are depending on your support. We hope that you will continue with supporting our projects.

Recently received donations:

Primary school Arcade donated money which we will use to build a nursery class room for the Magutu primary school.

Container with computers....

In co-operation with Stichting Hulp.nl we sent a container with computers to Kenya. We hope that all computers will be delivered to the selected schools in January 2011. Rose Anami will write a report about this donation for our next News Letter.

Workshops “Social Media” from 1% Club Kenya

Early December 2010 Rose Anami and volunteer Jerioth Wanjiku followed a special course, organized by 1% Club Kenya. Theme of this course was “Social Media”. They learned to make short videos about our projects, making a special community page on Facebook and to promote our projects in Kenya.

Jerioth (left sitting behind laptop) and Rose (in blue clothes) were very enthusiastic about the workshops, very useful.

You will find many photos and some videos about this meeting on Facebook:

HIV-Aids information

Our Field Manager Rose Anami organized -in co-operation with Bomu Hospital- a HIV-Aids information day for all students, parents and community of primary school Magutu, June 2010. Many people attended this special day; it was very successful. It encouraged us to decide to organize more similar days in near future!

Kwaheri
